六、文章

(一)议论文

(2025 年 6 月) Suppose your university is organizing a forum on **the development of students' cross-cultural communication abilities**. You are now to write an essay to express your view. You will have 30 minutes to write the essay. You should write at least 120 words but no more than 180 words.

第一段:

With the acceleration of globalization, an increasing number of universities have come to realize the necessity of developing students' cross-cultural communication abilities. Therefore, it is my belief that we should give priority to cultivating this essential skill.

第二段：

Developing cross-cultural communication abilities can bring multiple benefits. For one thing, it can broaden the horizons of youngsters. When communicating with people from different cultural backgrounds, students are exposed to a rich variety of customs and viewpoints, which not only enriches their understanding of the world but also encourages them to appreciate the diversity that exists across different societies. For another, if students have excellent cross-cultural communication abilities, they will be better equipped to handle international cooperation tasks. If they failed to have such ability, they might miss a lot of opportunities in their future careers.

第三段：

By and large, cross-cultural communication abilities play a crucial role in students' personal growth and career development. As college students, we should strive to learn foreign languages and actively participate in international activities to improve our communication abilities.

(2023 年 6 月)人际关系

Directions: Suppose the student union of your university is organizing an online discussion on interpersonal relationships. You are to write an essay on ways to maintain a warm and friendly relationship with your classmates and on the benefits of such a relationship.

It is beyond dispute that the relationship among our classmates has caused wide concern among students. As far as I am concerned, we should focus on the importance of a warm and friendly relationship.

There exist numerous reasons to account for my perspective. **To begin with**, if we can have a friendly friendship with our classmates or roommates, we might at least feel relaxed and delighted. With positive emotions, our study efficiency will be improved a lot. On the contrary, if we failed to get on well with our classmates, we might become gloomy and depressed, which will undoubtedly exert great influence on our normal study and work. **My English teacher Dayan might be the most favorable example**. She is sociable as well as hospitable so she is welcomed by almost all students. Wherever she stays,

there are always friends who chat with her.

In short, to maintain a warm and friendly relationship with others, something could be done. **Firstly**, university students could participate in more activities to communicate with their classmates. **Then** we should be honest and kind to the people around us. Only in this way can we get on well with other people.

议论文结构总结:(仅做参考)

第一段引出主题的句子:

1. Recently the issue/problem of... has been **in the limelight**(处于关注的中心)/**brought into focus**/**brought to public concern**.

2. Recently with the development/advance/progress of science and technology, the phenomenon of... has aroused wide concern.

3. Nowadays, it is undeniable that... has almost become the biggest concern of the present-day world.

4. What is your idea as to...? There exist varying/a variety of points concerning it.

5. With respect to/With regard to/When it comes to..., **people's arguments vary from person to person./attitudes differ from person to person./there are different opinions among people.**

第一段表示个人观点的表达:

In my opinion/As far as I am concerned/For my part/From my perspective/It keeps my perspective that...

第二段分析原因的总起句(本句可有可无):

1. The majority of people would agree that sth. has its deep roots.

2. It is superficially a simple phenomenon, but when subjected to analysis, it has its fundamental reasons.

3. There exist at least two reasons, from my perspective, for the present phenomenon.

4. As we know, recognizing a problem is the first step in finding a solution.

5. There exist numerous elements being responsible for the issue.

6. The reason for this is not far to seek.

7. There are abundant arguments for my standpoint.

第二段无话可说怎么办？

1. 举例论证

为什么要培养孩子迎接挑战的能力？

Although numerous cases are available for this argument, the following one about my teacher Liu is the most suitable. She was born in a poor family with three siblings. **Furthermore**, she, years later, failed to realize her dream to attend an esteemed university **even though** she studied hard during her senior high school years. **In such situations**, she has never given herself up, being convinced that “From the gutter, we can still look up at stars.” **And** what she believes is that poverty is never scaring; what we should be afraid of is that our minds are needy. **It is** through years of endeavors **that** her dream came true. **So** the story vividly tells us that it is necessary that students should be encouraged to develop the ability to meet challenges.

为什么说微笑是拉近人与人距离最好的手段？

The following story about my teacher, Dayan, is the most suitable. Whenever I see her, she always wears a smile on her face even though it might be a doomsday. As a consequence, almost every one of us enjoys chatting with her and she is very popular with students. So the story vividly tells us that it is necessary to keep an active attitude towards life.

为什么大学图书馆应该对外开放？

The following story about my university is the most suitable. It is a college which might be unknown to almost all people in China. However, our president is so open-minded that he makes a decision to allow anyone with some qualifications to borrow books from our library. As a consequence, more citizens enter the campus and better understand the history of my college. So the case tells us that it might be a good idea to open our library to the public.

2. 正反论证

Why students should be encouraged to develop effective communication skills?

If university students can develop effective communication skills, they will make more friends. In addition, the more friends they have, the happier their life on campus will be. **On the contrary**, if they fail to develop effective communication skills, they might become isolated, feeling lonely and depressed.

为什么要注重身体健康?

If teenagers and youngsters can take some time to exercise in their spare time, they will become healthy. With good health, they can make great contributions to the development of Chinese economy. **By contrast**, if the young and the old fail to pay attention to the importance of fitness, they might have many physical and mental problems such as obesity as well as mental disorders.

第三段总结措施段:

第一句:总结句:标志总结的逻辑关系词+个人观点

1. on the whole = all in all = overall = in conclusion/summary/general = generally (speaking) = as a whole = mainly = substantially = to sum up = to conclude = come to the conclusion 总的来说

2. in short/brief = in a word 简而言之

把文章中心再说一遍

推荐:

1. Under no circumstances can we ignore the importance/severity of sth.
2. What could be done to promote sth/to ban sth?
3. So crucial/grave is sth that enough attention should be paid to the issue recently.

第二句:措施:我们/政府/家长/学校

举例:

1. Students, from their early age, could be educated to cultivate the awareness that methods of learning are more important than learning itself.

2. Authorities could broadcast the importance of community responsibility in public.

3. However busy we are, we must remember exercising is quite essential

to keep fit.

第二句或者是倡议(可有可无)

推荐:

1. Only by taking certain steps can people make full use of _____.
2. So shouldn't human beings pay much attention to the issue of _____.
3. So under no account could people divert attention from sth.
4. The more actively people face the issue of _____, the more happily they will lead their life.
5. It is high time that the subject about _____ became a focus among youngsters.

你现在写一篇 11—12 分作文,问题是什么?

语法还是单词?

当我进来的时候,已经很疲惫了。我看见一个看起来特别像大雁的爷爷被一群人围着像鸭子一样地在跳舞。

I came in and felt tired. Then I saw a grandpa. He looked like Dayan and he was in the center of many people. At the same time, he was dancing like a duck.

练习:同学们自行阅读:一定要读。

(2024 年 12 月)

Directions: Suppose the university newspaper is inviting submissions from the students for its coming edition on how to enrich students' knowledge of traditional Chinese culture. You are now to write an essay for submission. You will have 30 minutes to write the essay. You should write at least 120 words but no more than 180 words.

In modern times, the issue about how to enrich students' knowledge of traditional Chinese culture has been brought into the limelight. From my perspective, college students should spend certain time understanding traditional Chinese culture, enhancing our cultural confidence.

First of all, college students can attend relevant lectures because these activities by renowned scholars can offer in-depth insights into ancient Chinese literature and thoughts, which can help us further reflect on ancient

Chinese culture. Additionally, reading classic works such as *Affairs in the Ming Dynasty* and *Journey to the West* can also help us systematically learn and understand the charm of our ancient cultural heritage. In the end, active participation in traditional cultural practices including poetry recitations and traditional festival activities is also essential, which helps us combine what we have learned with reality and further improve our cultural literacy and comprehensive ability.

In a word, there exist diverse ways for the teenagers and youngsters to know the beauty of Chinese culture. It is high time for college students to actively inherit and spread the excellent traditional Chinese culture and share its attraction with the world.

(二)书信作文

(2022 年 6 月)

Directions: Suppose you are going to write a proposal to your school library for improving its service. You are to write about its current problems and possible solutions to these problems.

Dear Sir or Madam,

I am a junior from the department of Fine Arts in this university. I'm writing to make a proposal for improving the service of our library.

第一段:

称呼: 提纲给出: Dear + 给出的称呼

提纲未给出: Dear Sir or Madam

自我介绍/问候语 + 写作目的

In the first place, the librarians especially Ms Liu and Mr Zhang are always impatient as well as uncourteous whenever students ask them for help. What's more, it is beyond dispute that the books available in the library are so old that they fail to catch up with the latest development of related disciplines. In the end, more English magazines and newspapers such as *Nature*, *New York Times* should be added, which could broaden the horizons of students on campus.

总结第二段: 用我们讲过的句型, 按提纲要求来写

At last, thank you for your consideration of my suggestions. I'm looking forward to your reply.

Yours sincerely,

Li Ming

总结第三段:表示感谢/祝福语+期待回信

(三)报告、新闻稿

1. 报告

For this part, you are allowed 30 minutes to write a **news report** to your school newspaper on a volunteer activity organized by your Student Union to help elderly people in the neighborhood. You should write at least 120 words but no more than 180 words.

On June 18, Sunday, a volunteer activity in the local Nursing House was organized by the Student Union, which proved to be a success.(活动内容+时间+地点)

The activity was aimed at encouraging students to visit the elderly at the Nursing House and help elderly people deal with the troubles in their life. Many students volunteered to participate in this good deed and were engaged in helping the elderly out by making their meals, washing their clothes and chatting with them. When asked about those volunteers' feelings about such an experience, all of them responded with a smile, saying "What a wonderful experience. I really appreciate this activity because it makes me learn to care about those who are in need."

To sum up, the activity is quite successful not only for the elderly but also for those students involved.

2. 新闻稿

首段:大体交代新闻事件,主要包含新闻事件发生的时间、地点、所涉及的人物及缘由等

(1) Last Sunday witnessed an extraordinary cross-country running race, which nearly drew the attention of every student and teacher of our school.

(2) Last week witnessed the first Culture Festival themed "the Beauty of Traditional Chinese Culture" held by our school.

中段:详细叙述调查或活动的经过

(1) As scheduled, the activity started at 8 o'clock on Saturday morning and it lasted for three hours.

(2) After the heated competition, the student who gave a superb performance was presented an award by our head teacher.

(3) Participants were required to prepare an English classic poem to recite within 5 minutes.

尾段:对事件的评价、自己的感悟或事件的意义

(1) The activity was indeed extremely successful, and the students involved realized that even small acts could make a difference to the earth.

Passage One

Our society places a high value on physical beauty. Americans spend an average of over \$722 each year on their appearance. One in ten Americans has tried to look like a star.

There's nothing wrong with trying to look our best, but excessive focus on physical appearance misses the soulful aspects of what it means to be beautiful. Trying to look like the magazine pictures can take us on a long ride away from what beauty is really about.

Many of us spend far too much time, energy, and money trying to polish an image of what we think will bring attention, love, and connection. In the process, we may fail to attend to ourselves in a way that would move us toward deeper intimacy, fulfillment, and meaning.

It may sound trite(老生常谈的), but beauty is only skin deep; it's not what brings love toward us. Just read about the latest Hollywood starlets whose seeming love turns into resentment and bitter court battles.

Outer beauty can be as much of a curse as a blessing. We may develop a habit of being so focused on maintaining a perfect appearance that we never cultivate the inner qualities necessary to sustain and deepen intimacy and connection. As I describe in my book, *The Authentic Heart*, it is the courage to be authentic that connects us in a deeper way.

While our initial attraction may be based, in part, on physical chemistry, it is the meeting of our inner worlds that creates the lasting intimacy and spiritual connection for which we long. If we redirect our attention toward cultivating inner qualities, we might find a magnetic attraction that moves us from something superficial to something that connects us to our depths.

The path toward cultivating inner beauty is really simple. But what is simple is not always easy. Not everyone will see us and appreciate us as we take the courageous risk to allow ourselves to be seen as we really are. But if they don't, it is their loss, not ours. Eventually we'll find those compatible souls

who appreciate us as we are.

46. What do we learn about American society from the first paragraph?
- A) It sees lots of personal income wasted on beauty products.
 - B) It considers one's physical appearance very important.
 - C) It places a high value on the physical fitness of stars.
 - D) It expects every individual to look their very best.
47. What happens when people strive to look better?
- A) They have to get prepared for resentment and bitter court battles.
 - B) They are better able to gain attention, love, and personal connection.
 - C) They may neglect to cultivate the inner qualities that matter more.
 - D) They feel much of their precious time, energy and resources is wasted.
48. What does the author say about outer beauty?
- A) It may be inherited or cultivated.
 - B) It may lead to bad as well as good habits.
 - C) It may create connection or isolation.
 - D) It may do as much harm as good.
49. What brings about spiritual connection?
- A) Meeting of minds.
 - B) Attraction at first sight.
 - C) Physical chemistry.
 - D) Frequent interaction.
50. What happens when we take the path toward cultivating inner beauty?
- A) We may find a route toward other people's souls.
 - B) We may be appreciated more by people around us.
 - C) We will meet people who value us for who we are.
 - D) We will be discouraged from revealing our true selves.

Passage Two

With the rise of pop music, jazz, and electronic music, both opera and classical music started to fade away from the public eye. Some people are beginning to wonder whether opera and classical music are still relevant to the

modern world of music. Granted, you will not typically see today's teenagers lending their ears to Bach anytime soon, but there are some major indicators that both opera and classical music are now still quite alive.

The most major indicator of classical music's importance in society today is the fact that much of the popular music that is currently being produced uses similar beats, harmonies, and melodies(旋律)as those that were used in some of classical music's best works. Even so, it can be difficult for those who do not study music theory to see this as an indicator, since it is subtle and just shows the impact symphonic(交响乐的)orchestras have had on society's taste in music.

A better example for the relevance of opera and classical music can be seen in the invention of the rock opera. Opera, in its simplest definition, is telling a story using music as its form. The art of telling a story using music has not faded in the least bit. In fact, sometimes actual orchestras are used for major parts of the opera itself. Some of the world's greatest hits have been parts of rock operas.

Fans of classical music can also tell you that there are few types of music that are more expressive. So, it should come as no surprise to anyone that classical music pieces are still used as background music in modern movies. Symphonic orchestra compositions have also been created solely for the purpose of being included in major motion pictures. These are often very well received amongst mainstream music fans.

Classical music and opera are the very foundation of what our modern music is based upon. Considering the huge impact they have had on our current society, it is without doubt that we can expect them to continue to remain important for centuries to come.

51. What does the author think of classical music and opera in today's world?

- A) They still make their presence felt.
- B) They have given way to electronic music.
- C) They will not fade away from the public eye.
- D) They are no longer relevant to teenagers' lives.

52. What do we learn about much of the popular music currently produced?

- A) It can be difficult for many classical music fans to appreciate.
- B) It can be seen as an indicator of refinement on classical music.
- C) It caters to society's taste in music in a more subtle way than classical music.
- D) It contains elements similar to those in some masterpieces of classical music.

53. Why does the author mention the invention of the rock opera?

- A) To illustrate how to tell a story using music.
- B) To present the simplest definition of opera.
- C) To show the relevance of opera and classical music.
- D) To justify the necessity of using orchestras in opera.

54. Why are classical music pieces still used as background music in modern movies?

- A) There are few types of music for movie producers to choose from.
- B) They are considered to be the most expressive type of music.
- C) They are well received by movie fans from all over the world.
- D) They are essential for movies to become the world's greatest hits.

55. What do we learn about our modern music?

- A) It could not have come into being without classical music and opera as its foundation.
- B) It cannot outcompete classical music and opera in its impact on our current society.
- C) It will not enjoy as much popularity as classical music and opera among music fans.
- D) It might not be able to rival classical music and opera in importance for centuries to come.

Why It's Wrong to Look at Work-Life Balance as an Achievement

36. According to a management expert, work-life balance is not as simple as giving equal amounts of time to work and personal life.

B) But the problem is that we often tell ourselves: “I’m going to put in eight hours’ worth of work, and then I’m going to put in eight hours’ worth of ‘me time’, which will include my family, my hobbies, my workout, my everything,” says Anat Lechner, clinical associate professor of **management** at New York University. “I don’t think it’s such a simple formula.”

37. Research found that those who are given greater flexibility at work are less stressed and more likely to stay in their jobs.

J) Under the management redesign, many steps were taken to ensure better work-life balance and prevent *burnout* (精疲力竭). Managers were regularly reminded to explicitly support their employees. Workers were allowed to make changes, like cancelling 9:00 am meetings. All of this was done in the name of increasing job satisfaction and giving workers **greater**

flexibility, and to assure workers that it was something management was committed to. Unsurprisingly, Kelly and Moen found that employees in the redesign group reported **less stress and less burnout**. They **were less likely to quit their jobs** ; indeed, over the next four years, they were 40% less likely to quit than those who kept working under the old policies.

38. Workers who rejected working long hours tended to make regular adjustments in order to achieve work-life balance.

E) Lupu and Ruiz-Castro looked at those who **rejected the long hours** and they found that those workers actually had strikingly similar strategies for maintaining their work-life balance. They had a tendency to reflect and question assumptions in the name of self-awareness and **regularly took steps to adjust** the things standing in their way to work-life balance.

39. Talking about work-life balance is said to be a privilege reserved for the better-off, not for those who barely make a living.

L) That's a conversation that appears to be gathering pace. The new prevalence of remote and flexible working models will likely all play important roles in how we balance our professional and personal lives. And if it seems like finding that perfect balance remains difficult to achieve, the experts say that keeping some perspective can help. For millions of people, work is about being able to put food on the table. **Talking about work-life balance** "is a very **privileged conversation**", says Lechner. "If we're reflecting, maybe we should also reflect on that."

40. Knowing one's emotional state is of utmost importance in deciding what changes to make for a better work-life balance.

G) This five-step process is something anyone can adopt. Going through the steps, and constantly checking in with yourself, can help you shift and adapt your professional life to something that will better harmonise with your personal one. "**Awareness of your emotional state is essential** in order to determine **the changes** you want to make in your work and in your life," says Lupu.

41. More female professionals reported being reluctant to work overtime than their male counterparts.

D) Although it sounds like the respondents had a lot in common, here's what separated them: **about 30% of the men and 50% of the women reported resisting working long hours.** The other respondents, meanwhile, all worked long hours because they thought that's what successful professionals should do.

42. Without organisational support any personal effort to maintain work-life balance will be unsuccessful.

K) "Work-life balance is understood to be an individual's response, so people think 'it's up to me to manage the craziness of my work life' ", says Kelly. But organisations need to examine the demands they're placing on employees. "The root problem is not how the two pieces of work and life come together. It's that we have unrealistic expectations of what we're asked to do on the work side." **If your workplace isn't an environment where work-life balance is possible in the first place, any effort you attempt to make toward it on a personal level will be in vain.**

43. The question of how to achieve work-life balance has long been the main subject of discussion among workers.

A) Few **topics** have been so endlessly analysed as work-life balance. The quest to attain this mysterious state has **dominated discussion around careers** for years—especially for working parents. The concept is often presented as something to achieve, or a goal to reach. And once you've reached it, congratulations; you've made it; you're a successful human being of the 21st century.

44. You may not actually experience emotional well-being at home if you remain occupied with what happened at work.

H) New York University's Lechner agrees that finding that balance is an ongoing pursuit. It's not simply about dividing up the hours in your day between work, the gym, kids and chores. **If the underlying emotional sources of stress are still there, then the time you actually spend at home may not be enjoyable.** "We come home and even though physically we are there, mentally we still may be processing things that happened at work. We're not present,"

she says. What we call “work-life balance” is actually just a substitute to having a sense of fulfillment and contentment.

45. Some researchers suggest that work-life balance is not a goal to achieve, but a process for life to be adjusted promptly.

C) And, according to new findings, it may not be. Some researchers are now encouraging us to **stop thinking about work-life balance as an achievement** that you either hit or don't. Instead, they suggest **it may be more of a lifelong process**—a continuous, never-ending exercise that requires self-awareness and timely **adjustments**. Researchers Ioana Lupu and Mayra Ruiz-Castro argue that work-life balance is “a cycle, not an achievement”. In their 2020 study, the researchers interviewed nearly 80 employees at two London-based firms—an equal number of men and women between the ages of 30 and 50, all with at least one dependent child—who worked in middle or senior management roles.
